

Door Stop Seals

SEALMASTER MONSOON

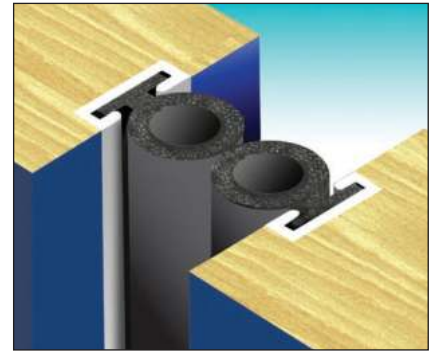

For heavy duty door applications, roller shutter doors & sliding doors

SHS/027

SHG/026

SHS/026

APPLICATIONS

A heavy duty draught and noise seal for industrial or other large applications.

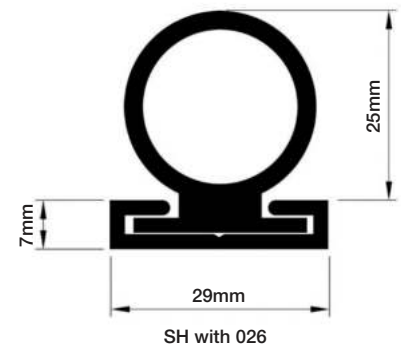

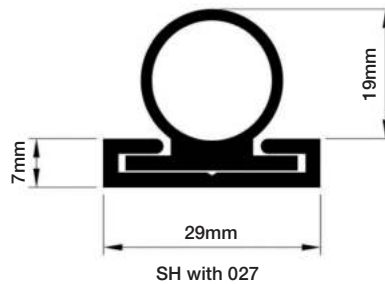

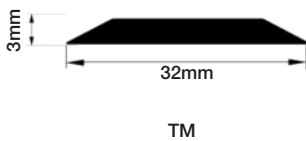

FEATURES & BENEFITS

Monsoon seals are circular heavy duty draught and noise seals, particularly suitable for use in industrial applications on large doors where the gaps are consistent and for the bottom of roller shutter doors.

On roller shutter doors, these seals should make contact with a suitable threshold, such as the Thunder TMS or TMG.

HOW TO SPECIFY

e.g. Sealmaster Monsoon SHS/026 with Sealmaster Thunder TMS contact strip to suit door inmm wide opening.
